## OUR MISSION

Konkourona Alliance Foundation (KAFO), Inc. is a nonprofit organization dedicated to improving access to **quality education, good health and well being, clean water and sanitation** to people in Burkina Faso. KAFO is also committed to supporting **decent work and economic growth** and taking action to prevent **climate** change.

## *Empowering a Village*

There was tremendous strengthening of the community of Konkourona in 2021. Members of the village association with which KAFO partners, Mami Siara Na, came together to support elementary and higher education for their children, installation of a water tower, implementation of a sustainability plan for access to the water, and construction of a health center.

**Keeping members of the community at the center of all development activities is paramount to long-term success.**

A photograph of a community water distribution point in a rural, arid setting. Several people, including women and children, are gathered around a large metal water tank. They are using various containers like blue and yellow jerrycans, metal bowls, and buckets to collect water. Some women are carrying children on their backs. In the foreground, there are several yellow jerrycans and a woman with a bicycle. The background shows a simple brick building and some trees under a clear sky.

## OUR IMPACT

76% of elementary school students **progress to middle school**, up from 4% in 2019

**Primary Health Center** construction completed.

**Clean water** available to approximately 3000 people

**Sanitation** available to teachers, healthcare workers and visitors to the Primary Health Center

# OUR PROGRAMMATIC PILLARS

Ensure healthy lives and promote well-being for all at all ages.

Ensure inclusive and equitable quality education and promote lifelong opportunities for all.

Ensure availability and sustainable management of water and sanitation for all.

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

Take urgent action to combat climate change and its impacts.

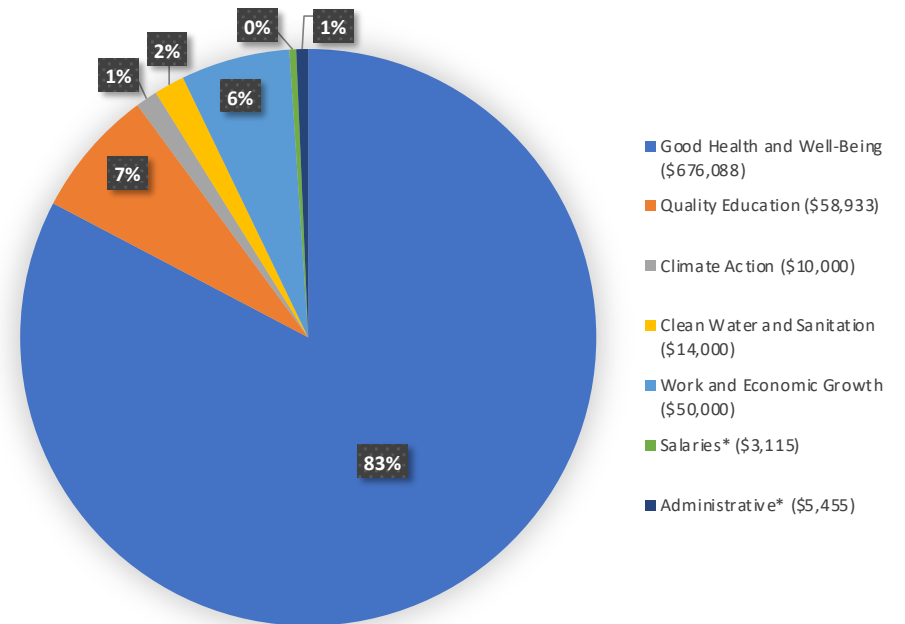

**SUSTAINABLE DEVELOPMENT GOALS**

*This report covers the period from 1-May-2021 to 30-Apr-2022.*

Burkina Faso is one of the poorest countries in the world and has been under attack by terrorists since 2015. This has displaced almost 2 million people from the regions most frequently attacked.

The country has limited resources to fight off attacks and provide for the population. KAFO is providing support to the community of Konkourona in an effort to strengthen the basic infrastructure in one small village and plant seeds of hope for a better future.

KAFO plans to work with MSN to continue supporting higher education, provide access to healthcare, expand access to water and sanitation, continue to provide opportunities for decent work and economic growth, and fight climate change through reforestation efforts.
